

# Memorandum

Subject: Muddy Creek WWTP Expansion to 0.66 MGD - Addendum No. 3 to RFQ

Date: January 23, 2026

To: All Prospective Offerors

From: Water & Sewer Authority of Cabarrus County (WSACC)

Copy: Brown and Caldwell

WSACC received an additional question regarding the RFQ, and this Addendum No. 3 provides the associated response to all prospective Offerors. Wording for this question has been modified for presentation here while preserving the meaning of the question.

**Addendum No. 3 – In preparation for the weather that South and North Carolina may experience this weekend, is an alternate method of submitting the Statement of Qualifications (SOQ) acceptable?**

Prospective Offerors may submit an electronic version of the SOQ (in PDF format). If the SOQ file is smaller than 30 megabytes (MB), the prospective Offeror should email the proposal to Thomas Hahn at [t.hahn@wsacc.org](mailto:t.hahn@wsacc.org). If the SOQ file is larger than 30 MB, then the prospective Offeror should provide a working link to Thomas Hahn via email, along with thorough and accurate instructions for accessing and downloading the SOQ file. With either electronic submittal alternative referenced above, the prospective Offeror should confirm receipt of the SOQ with Thomas Hahn. The SOQ due date and time are unchanged from that shown in the Request for Qualifications (RFQ).

Prospective Offerors may also submit their SOQ following the original SOQ formatting / submittal requirements under the “SOQ Due Date and Time” section of the RFQ if they would prefer.
